

# Argentina ICT Modernization REVERSE TRADE MISSION

Business Roundtable | May 21, 2019 | San Jose, CA

## Opportunity to Meet with ICT Decision-Makers from Argentina

On a visit to the United States, decision-makers from Argentina's ICT sector will learn about cutting-edge U.S. solutions that can support the country's plans to modernize fiber optic networks, broadband infrastructure, cybersecurity, communications satellites, e-government services, and data centers. The roundtable, hosted by the U.S. Trade and Development Agency, will allow U.S. companies to meet with and showcase their solutions to the delegation, as well as learn about upcoming project opportunities.

**Business Roundtable**  
**Tuesday, May 21, 2019 - 9:00 AM - 11:00 AM**

## Background

Recognizing the significance of advanced technology solutions in promoting economic growth, the Argentine government is planning to make substantial investments to modernize the country's ICT sector. Specifically, federal, provincial, and municipal governments in Argentina are looking to identify ICT solutions that can improve e-government services, modernize cybersecurity protection systems, and expand internet access to urban and rural populations. The country's ICT modernization strategy prioritizes investments in the areas of fiber optic networks, broadband infrastructure, cybersecurity, communications satellites, e-government services, and data centers. Additional areas of interest include identifying innovative technology solutions to enable government entities in Argentina to better serve the IT, transportation, and energy needs of their residents.

The visit is being organized by USTDA's contractor, the Bilateral Chamber. For more information about how your company can participate in or become a sponsor for this visit, please contact Eliza Chon at [eliza@bilateralchamber.org](mailto:eliza@bilateralchamber.org).
